 07/11/02 q1 PanSaver Liners

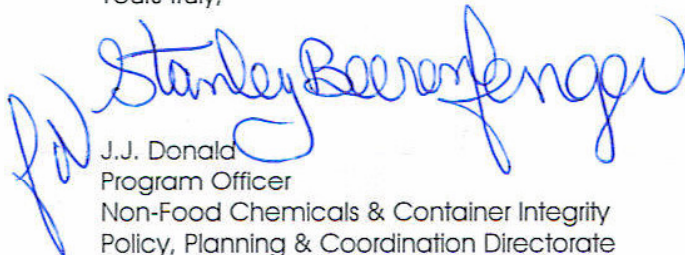

This is in reference to your letter dated September 19, 2002, concerning the aforementioned liners for which you have requested acceptance for use in federally registered food establishments.

Based on the available information, no objection would be taken to the use of the above liners for packaging/cooking foods either by conventional oven, microwave or boil-in applications and under the following conditions all types of foods at 400 °F for 6 hours.

This acceptance is not to be misconstrued as an endorsement for this or similar liners, and their use in Registered Establishments will depend upon their continued acceptability to all concerned.

Should any changes occur in the chemical formulation of the aforementioned liners, then this acceptance will be considered NULL and VOID.

Yours truly,

J.J. Donald
